Ms. Aurand requested that HNI and Ms. Buehlman meet following the first event on Aug. 15 to determine if changes are needed. Mrs. Schaefer will deliver fireworks buttons to Town Hall.

Carol Demas, 402 W Jennings, Newburgh, stated the town received a \$250,000.00 construction grant in 2010 for sidewalks between Washington and Monroe on the north side of Jennings and on State Street from Jennings to Sharon Place and she wondered what happened to the money. Ms. Buehlman stated the grant was for Safe Routes to School (SRTS); however, the Indiana Department of Transportation (INDOT) required the town move the project to the south side of Jennings due to right-of-way easements and road ownership. Ms. Demas feels the sidewalks on the north side of Jennings are far inferior to those completed on the south side and the bus and truck traffic are not being taken into consideration at the Jennings and Jefferson intersection. She further stated she has spent \$3,600.00 for tree removal in anticipation of the same type sidewalk on the south side of Jennings. Mr. Hynes stated an identical sidewalk will be placed on the north side of Jennings with one exception, the curb and gutter on the south side will be a shallow gutter due to drainage issues. Any retainage walls that had to be removed for sidewalk placement will be restored. Necessary steps will be taken to ensure proper drainage. Mr. Hynes will arrange a meeting with Ms. Demas to discuss the issue further.

#### 6. Americans with Disabilities Act (ADA) Compliance

Mr. Wischer stated he and Mr. May have spoken and the ADA and relevant Indiana and U.S. laws have been reviewed. The findings are as follows: the town has no local enforcement authority over the ADA or similar statute under Indiana law. The ADA is a federal law separated into five different titles. Title II discusses the town's obligations for the facilities and services readily available to the disabled and to not discriminate in the provision of those services and in those facilities. Any new facility built by the town after 1992 is required to be ADA compliant. Private businesses fall into the Title III category. All ADA issues fall under the jurisdiction of the Federal Department of Justice (DOJ). All complaints are to be filed with the DOJ; state and local agencies are not authorized to enforce the ADA. Indiana has a separate statute that deals with discrimination, including disability, under the Indiana Civil Rights Commission. Complaints can also be filed with the IN Civil Rights Commission. There is an option under state law for local governments to adopt an ordinance creating a civil rights commission and a few large Indiana cities have done so. Mr. Wischer does not recommend the Town of Newburgh form a commission. Gary May, 2699 Briarcliff Drive, Newburgh, state the town has the opportunity to create a livable community and has not been impressed with the council's knowledge of ADA or their effort to create a local commission. Under Title II, the town has submitted ADA compliance plans to INDOT. HNI is a non-profit organization and not associated with the town and not included under Title II. Mr. May further discussed concerns regarding diversity and hospitality. Mr. Wischer detailed the law and its requirements. Ms. Aurand stated that for the first time in almost 20 years, Ghost Walks will be ADA accessible and feels the town is moving toward a livable community.

Mr. Wischer stated the council previously approved the Meijer Department Store sanitary sewer plan contract and Indiana Department of Environmental Management (IDEM) Permit. Meijer has requested a sewer agreement extension of five years with regard to a plat for a dedicated roadway. Mr. Hynes stated one year is the normal request and an extended request reserves too much sewer capacity with no income received. Mr. Wischer stated there are ways to dedicate the roadway to the county without a plat. If a letter is issued to the plan commission in Warrick County and the plat is recorded, the sewer must be substantially completed before the town can issue sewer taps and the county can issue building permits; thus an individual purchasing a lot may have to wait to build until the sewer is complete. Mr.

Hynes stated a two year extension with renewal option is being suggested. Mr. Wischer will proceed and update the council at the next meeting.

**TOWN ENGINEER – Mr. Hynes**

Mr. Hynes stated the Trail Committee has reviewed options for sign placement along the trail to distinguish the areas for walkers and vehicle traffic; pictures were distributed to the council.
